ELEGANT WREATHS

Begin with a store-bought wreath. Insert a 12" -16" length of florist wire through each pear crosswise, and wire them onto the wreath. To add the clusters of ornaments shown on our traditional wreath use florist wire or a glue gun. To make the boxwood wreath as pictured, add rose hips or berries, with florist wire or a glue gun. Finish with a beautiful holiday bow.

whether you prefer traditional winter greens or the sophisticated boxwood wreath, this is a quick and easy way to dress up a store-bought wreath. Download our boxwood garland project to make a matching garland.

MATERIALS

1. store-bought wreath, choose traditional greens, or boxwood
2. Pears: 6-8 green Anjou for traditional; or 8-10 Red Anjou for boxwood
3. florist wire
4. Bow (with wire)
5. glue gun (optional)
